CPR Rate Monitor

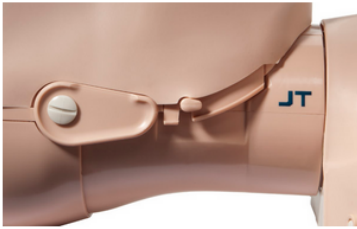

Prestan Professional Manikins are equipped with a revolutionary new CPR Rate Monitor that allows for instant feedback to both instructor and student regarding the rate of chest compressions. The visual feedback from the CPR Rate Monitor gives students a real life feel of delivering 100 compressions per minute.

Compression Rate Indicator Lights

-  Red light: 1 to 59 compressions per minute
-  Yellow light: 60 to fewer than 79 compressions per minute
-  One green light: 80 to 99 compressions per minute
-  Two green lights: 100 compressions per minute

Audible Clicker

In addition to the visual rate monitor, students will also hear a clicker sound as the chest is pushed to the appropriate depth allowing them to experience the true force needed to deliver real life chest compressions.

Jaw Thrust Manikin

Prestan's Jaw Thrust Head gives instructors the option to teach with the jaw thrust maneuver or head-tilt/chin-lift.

Easy Set Up

Fast & Simple

Clamshell torso design that accommodates an easy-to-insert face shield lung bag.

Available in Single or Four Packs
